The latter has been in the employ of Wineburg during the last four or five months, principally as traveling salosamu. He was formerly engaged as asleaman for Gross Bros. at New Tacoms. The goods found in his possession condisted of silk handkerchiefs, stockings, pures and vortous knick knacks. Much surprise is expressed among those who know Tobles, at the bad appearance of the case against him.

Henry Pettit, in which Miss Louise Rial will make her first appearance before a Portland sudience to-morrow evening at the New Market thesier, is pronounced by the press of Enrope and the eastern sities to be she strongest play that has been placed before the public for the last ten years. The story deals with everyday life in which the trials of Kate Denby and her hus sand, Walter Lee, age such as rived networked in from the opening to the drop of the curtain on the last act. Louise Rial, in the part of Kate Denby, has swon laureds as an actress of which she may be truly proud. Thomas Barry and his family have been em-ployed to take charge of the old asylum buildings in East Portland by Mrs. Hawthorne. Workmen have been engaged in sawing off the high fence so as to make it of ordinary highs and have the grounds look respectable; besides, with the fence lower there is not such a chance for outlaws, thieves and robbers to make their headquartors there, as would have been the case otherwise. The building has not been lensed, ner is there any probability that it will be, for a reform school. The latest addition, the nor it wing, will probably be moved somewhere down town and fitted up for stores and other purposes. As it is a long building it would make an excellent row on some streas and bring in a good revenue for rents. The and bring in a good revenue for rents. The grounds and shrubs will be preserved as they have been.

SNEAR TRIEVES AT WORK.

Complaints are made every day to the police of petty thieving from dwelling houses, stores. of petty thieving from dwelling houses, stores, hotels or offices, all of which shows that there are a large number of sreak thieves prowling about the city, and so professionally do they pursue their practices that even the lynx-cyed grardians of the peace cannot protest every one. Consequently, looks and keys should be carefully and thoroughly used. Two more depredations were reported at the city jail last night. Francis O'Brian, one of the mechanics engaged in constructing the round house at Albina, and who boards at the Berton house, bemoans the loss of a fire dress coin valued at \$30. Mr. Lichtenstein, a boot and shoe dealer on First street, when pringing in the stock which hange outside the door, discovered that two fine boots were missing. They were dissimilar in make and were both rights—there is no doubt about this, as their mates were both left. One was a high-heeled boot and two sizes smaller than the other. Undoubtedly, in beiserrely examining his pirated prize, that thief wasted a good deal of profamity. Lichtenstein says if he will return the two mistls he can have a pair for half price.

TEAR HILLED.

Yesterday forenoon a tearnster in the employ of the Third street railway company was sent up to the corner of Sherman and Third streets to haul away a number of rails which were left there when the track laying there was completed, Its drove his team up alongs is of the sidewalk and had hat put one rail in his wagon when something seared the horses and they started up Third street on a run. The driver managed to each one of them by the bridle, when the terrified animal ran against the wheel of a beavy truck standing near Carnhors street, knocking both horse and driver down. The former scrambled to his feet and the team heel on down the hill toward Marquan's guich at full speed. Third street is greated out quite a distance into the guidn and at the end of the grade on the east aide is an elevated platform with railing. The runiawsy team dashed out on this platform, crashed through the railing and went baselong to the ground a distance of twenty-fipe feet. They struck upon their besds one of them having his needs broken and its other/fracturing his skull, causing almost instant death. The reach of the wagon broke, the his dwifelic going clear over the horses into the guich. The horses were a fine pair of grays one of them belonging to E.
